Future Regulation: What Do You Need to Be Ready For?

Brian Fletcher

Director Government Affairs APJ
Symantec
@BrianFletcherAU

#RSAC

Regulation – why should you care?

Jessica To'oto'o on Unsplash

Why regulate? (1)

- To fix something
- To control something
- Signalling
- Policy trends

Michael D Beck on Unsplash

Why regulate? (2)

- Impact on citizens
- Impact on economy
- Impact on security

Michael D Beck on Unsplash

Privacy

- LOTS of change
- Privacy/data protection vs security
- Famous ones – GDPR, CBPR, CCPA
- Basic privacy is all about data lifecycle management
- Different for different jurisdictions

Dayne Topkin on Unsplash

Privacy

So what?

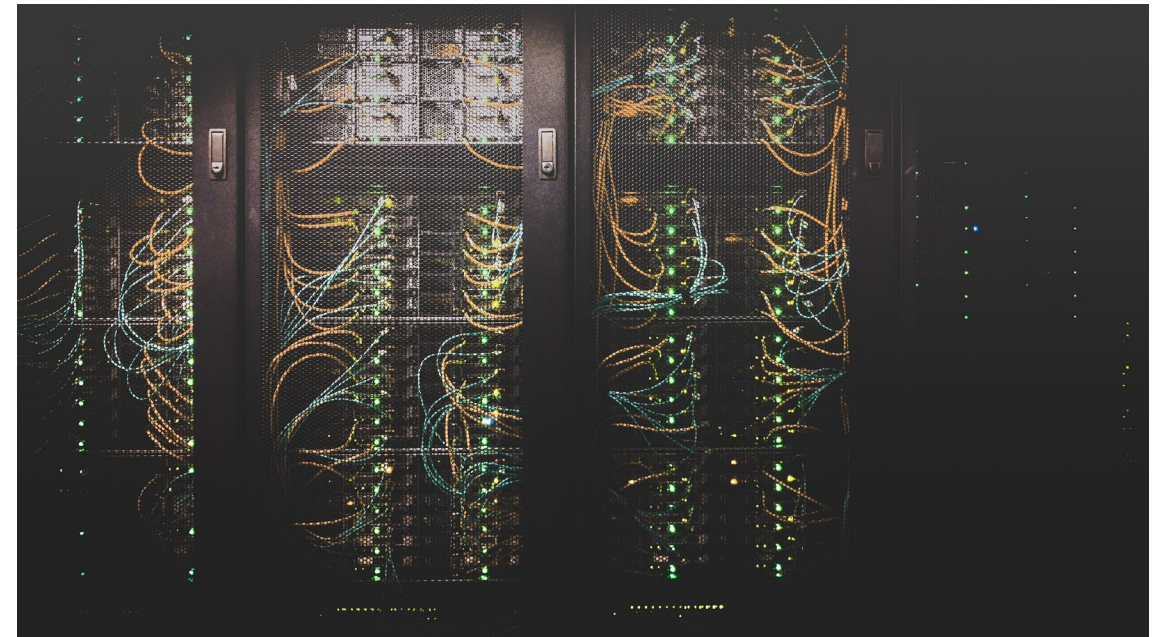

- Understand your data – what, who, where, why
- Be a part of the business – privacy is cross cutting
- Breach notification
- You can help the business be more trusted

Dayne Topkin on Unsplash

Cloud

- Data localisation
 - Privacy
 - Security
- Certification explosion
 - Regional differences
 - Security for 'cloud'

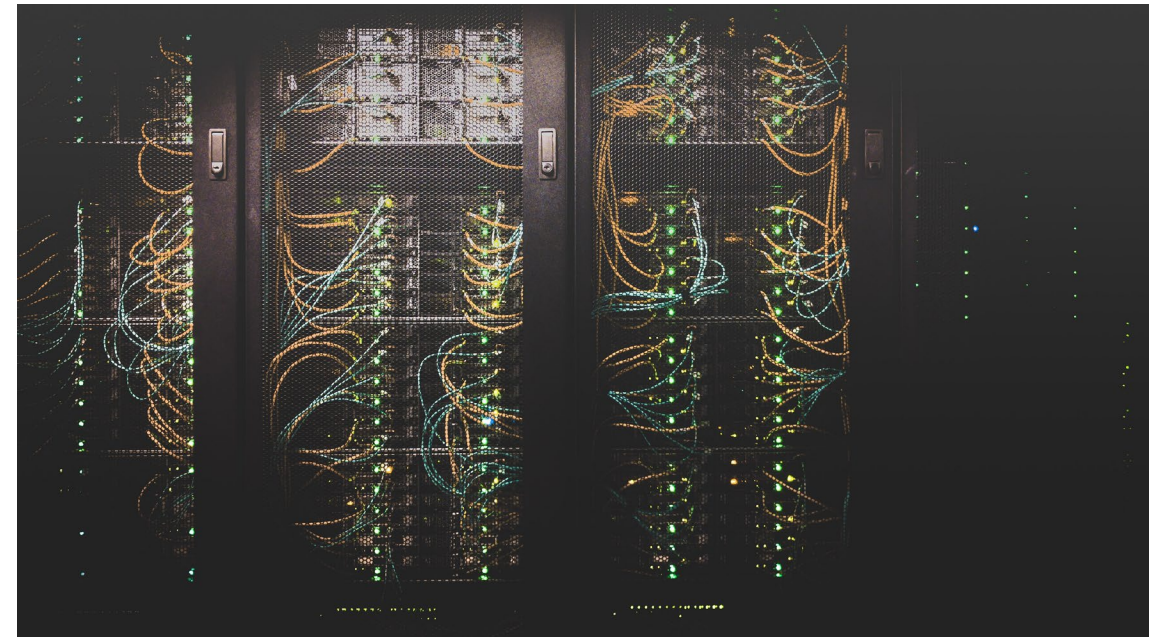

Taylor Vick on Unsplash

Cloud

So what?

- Cloud is everywhere now
- What security/certifications do you need for what customers?
- How can you tell if it is secure?
- Shadow IT
- Contracting/liabilities
- Geopolitical machinations

Taylor Vick on Unsplash

Artificial Intelligence

- Trending won't end
- Algorithm transparency
- Security of AI?
- Where did the data come from?

Hitesh Choudhary on Unsplash

Artificial Intelligence

So what?

- You will be consulted
 - what will you say?
- Purchasing decisions
 - do you know what to ask?
 - what are the risks?
- Work with the business

Hitesh Choudhary on Unsplash

IOT

- IOT devices are a problem NOW
- What about OT
- Consumer vs enterprise
- New technology impacts

Martijn Baudoin on Unsplash

IOT

So what?

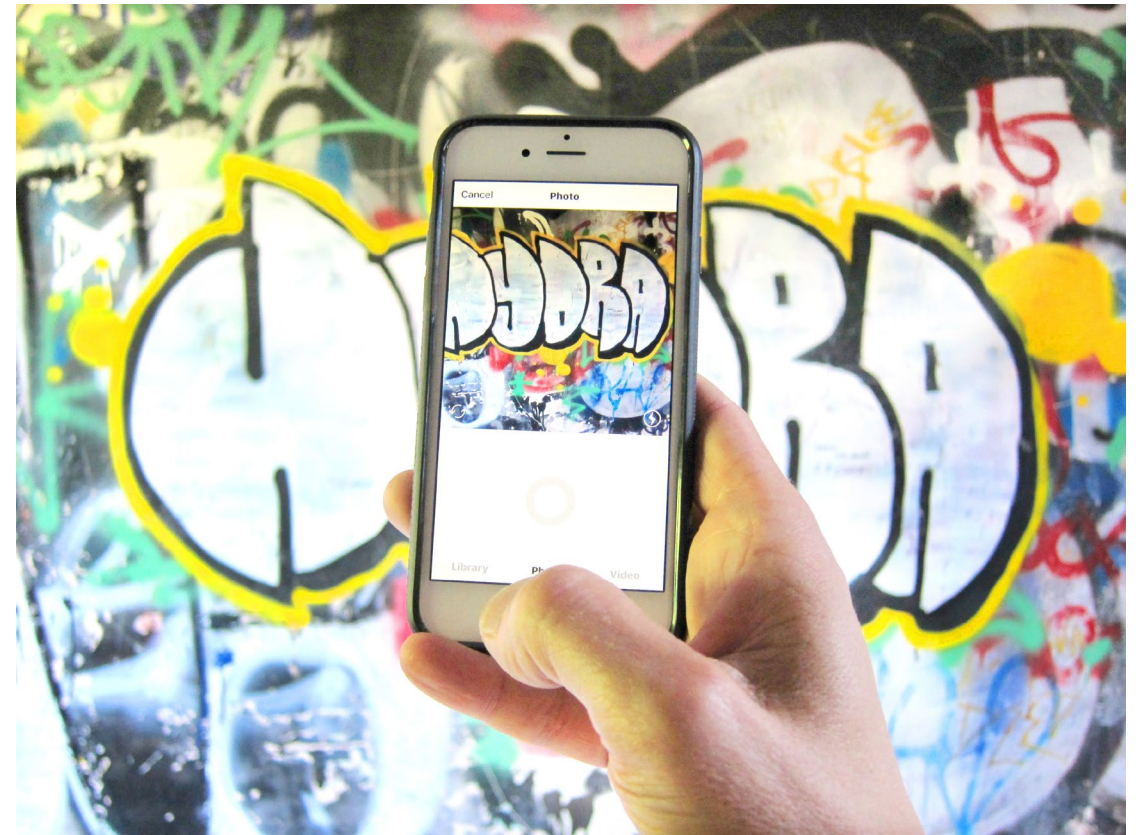

- IOT devices are a problem NOW
- What about OT
- Consumer vs enterprise
- New technology will impact

Martijn Baudoin on Unsplash

Content

- Current trend to control content
- Will be very different in different jurisdictions
- Very difficult – resource intensive

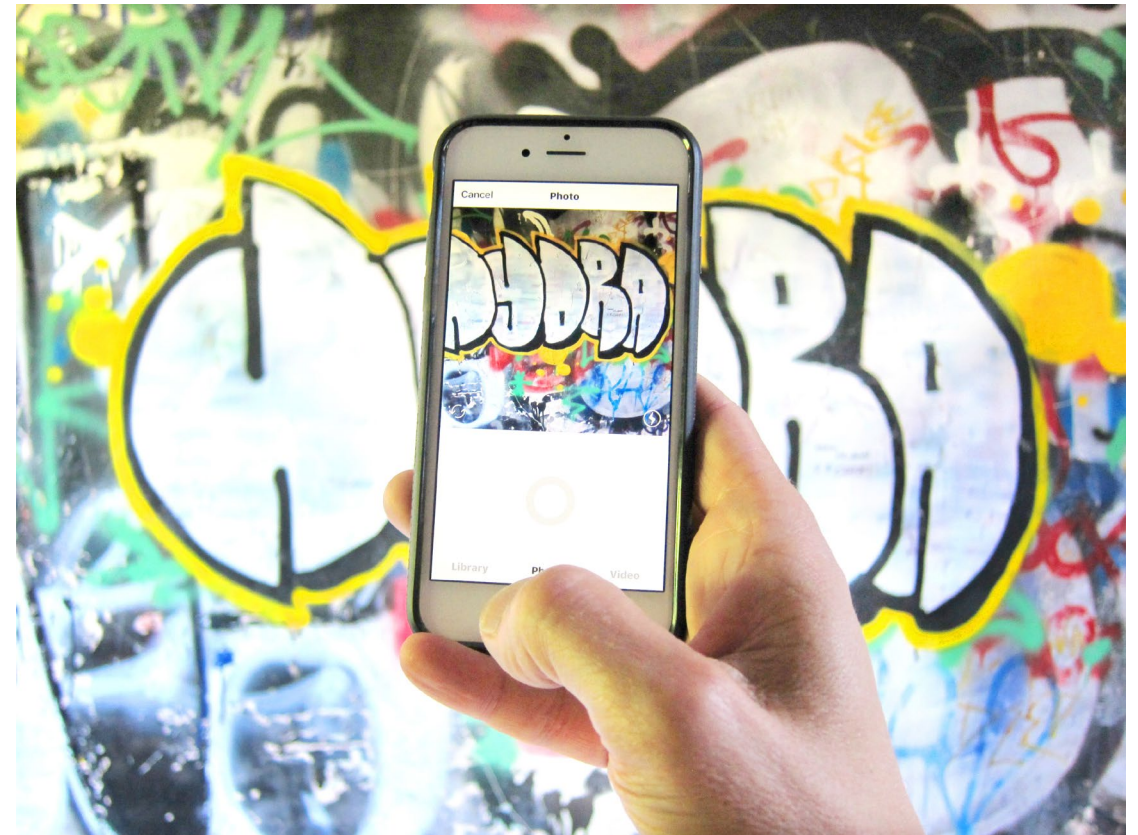

Hello I'm Nic on Unsplash

Content

So what?

- Does your company have user generated content?
- Security responsibility or not?
- Process/staffing for content moderation

Hello I'm Nic on Unsplash

Other trends into the future

- Data portability
- Software liability
- Sovereign capability

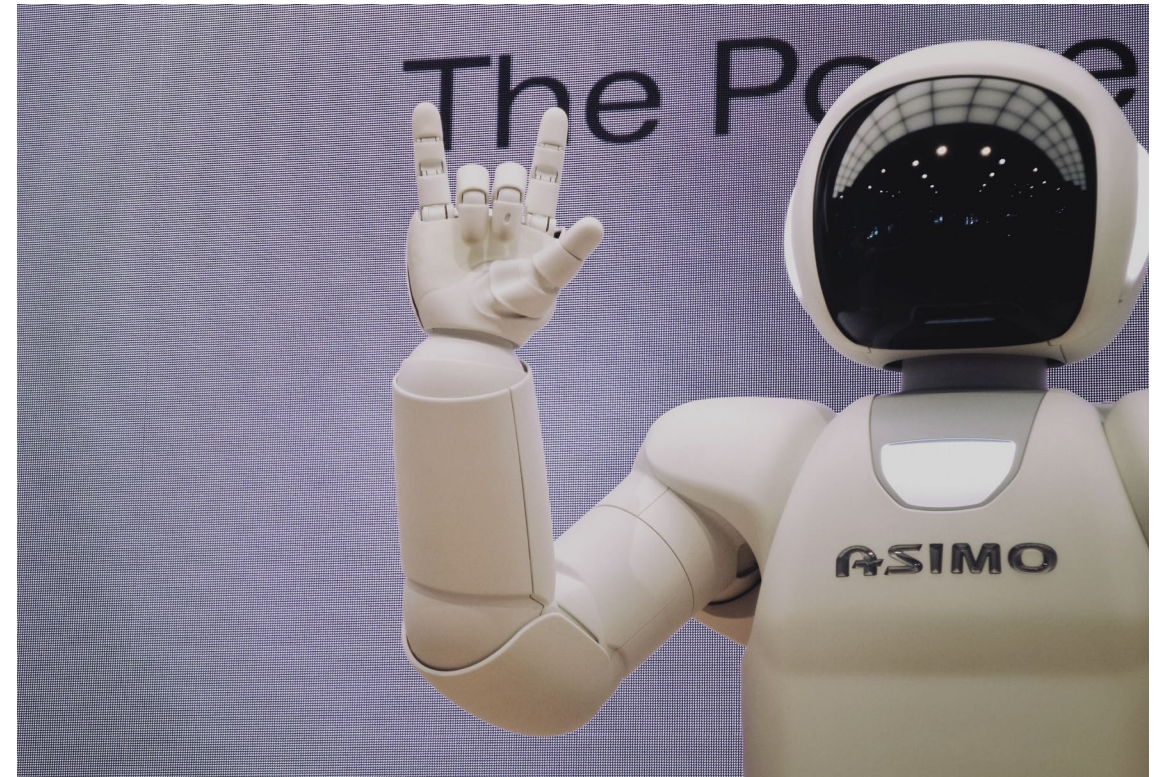

What else?

Frank V on Unsplash

So what?

- Keep on top of regulatory trends
- Understand the business
- Work inside the matrix

Frank V on Unsplash
